

Resolution #925-2013

Weed Resolution: NOXIOUS WEEDS TO BE DESTROYED

The Wapello County Board of Supervisors, in their official meeting April 30th, 2013 adopted the following resolution:

1. Each owner and person in possession or control of any lands in Wapello County shall be responsible for controlling noxious weeds as defined in Iowa Code Section 317 in such a way as to prevent them from reseeding or otherwise coming to maturity. Special precautions should be taken where said weeds would interfere with safe use of public roadways.
2. Date for control of noxious weeds for all species is June 1st, 2013.
3. Failure to comply with the provisions of this policy will result in the Weed Commissioner causing control measures to be implemented as defined in Iowa Code Section 317, and the cost of these measures, including the cost of serving notice, to be assessed against the landowner(s). In the case of noxious weeds on Conservation Reserve Program (CRP) lands, the Farm Service Agency (FSA) office in Ottumwa will assess fines. In all cases, the weeds will still have to be destroyed.
4. The Wapello County Auditor is directed to publish this notice in each of the official newspapers in the county.

Passed and approved on the 30th day of April, 2013.

Wapello County Board of Supervisors

Jerry Parker

Steve Siegel

Greg Kenning, Chair
