

QUESTIONS ABOUT DRIVEWAYS AND FIELD ENTRANCES

Wapello County has an established policy on entrances. Following are questions we hear often related to this policy.

Q: Do I need a permit to widen my driveway?

A: Any work done (including driveway widening) in the right-of-way requires a permit from the County Engineer. You can download a permit or visit our office to fill one out. We will review the site and authorize the work before it has begun.

Q: How do I add a driveway to my property?

A: You need to fill out a driveway permit and submit it to our office. We will review the proposed location for site distance and safety. We will provide the required pipe diameter if one is required. After the permit has been reviewed, you may construct the entrance.

Q: Who repairs driveway culvert pipe?

A: All driveways and maintenance of such are the sole responsibility of the property owner. Please see Driveway and Entrance Policy for more details.

Have another question? Please contact our office and we will answer it.
